Pag. 49

1. Fixati intrerupatorul pe ON. Led-ul de pe telecomanda se va aprinde.
2. Corectati echilibrul rotilor.

Pag. 50

1. TEST DE FRANARE

Așezați o carte și o riglă așa cum arată imaginea. Începeți provocarea la aproximativ 2 metri distanță. Accelerați complet, apoi opriți cât mai aproape de carte.

2. SLALOM

Puneți patru cărți așa cum arată imaginea. Poziționați mașina pe linia de start și finalizați circuitul cât mai repede posibil.

Pag. 51

3. PARCAREA

Așezați trei cărți așa cum arată imaginea. Poziționați mașina la linia de start și porniți cronometrul. Parcați-vă mașina cât mai repede posibil.

4. SOFER PROFESIONIST

Creați mai multe unghiuri de viraj diferite pe podea: 45 grade, 90 grade, 180 grade. Pe măsură ce vă apropiați de colț, poziționați mașina în exterior, apoi întoarceți roțile în direcția virajului și reduceți viteza. Când ajungeți în dreptul stelutei (*), începeți să îndreptați mașina și accelerați în viraj. Creează-ți propriul circuit și îmbunătățește-ți timpii.
